Eye contact

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. Remove contact lenses, if present and easy to do. Continue rinsing. Do not rub affected area. Get medical attention if irritation develops and persists.

Skin contact

Wash off immediately with soap and plenty of water for at least 15 minutes. Get medical attention if irritation develops and persists. Wash contaminated clothing before reuse.

Inhalation

Remove to fresh air. Get medical attention if symptoms occur.

Ingestion

Rinse mouth immediately and drink plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Call a physician.

Most important symptoms and effects, both acute and delayed**Most Important Symptoms and Effects**

Acute exposure may result in eye and skin irritation. Symptoms of acute exposure may include the following: burning or stinging sensation, irritation, redness, and pain.

Indication of any immediate medical attention and special treatment needed**Notes to Physician**

Treat symptomatically. Contact poison control if large quantities have been ingested.
